PROJECT DETAILS:

1. TITLE: GSM Based Voting Machine

DESCRIPTION: In the growing age of technology, we thought for an idea to make it possible to vote through our cell phone. Our Project makes it possible to vote using a cell phone. The concept behind the working is simply when a valid voter (whose mobile number is registered in the system) send an SMS to the number used by GSM module. The SMS is received by GSM module is send to the microcontroller which decode it and message "vote casted" is displayed on the LCD display. If the same voter tries to caste another vote his vote will not be casted and a message "invalid vote" will be displayed on the LCD. If an unregistered voter tries to vote his vote is also not accepted.
